## WORK EXPERIENCE

### Web Developer Intern

UneeqInterns

1st May 2025 - 25th May 2025

- Developed and deployed three key web projects during the internship:
  - [E-commerce platform](#) with product listings, shopping cart, and dynamic checkout flow.
  - [Authentication system](#) implementing user registration, login, password hashing, and session management.
  - [Payment gateway integration](#) enabling secure transaction processing with mock/test APIs.
- Utilized technologies such as React, Node.js, Express, FirestoreDB, and RESTful APIs
- Gained hands-on experience in full-stack development, project versioning with Git, and collaborative team workflows.

## EDUCATION

### Ain Shams University & University of East London

Bachelor's Dual Degree in Computer & Information Sciences

2021-2025

Cumulative GPA: 3.726

- Software Engineering Department
- Relevant Courses:
  - Object-Oriented Programming
  - Data Structures & Algorithms
  - Software Project Management
  - Web Development
  - User Interface Design
  - Agile Software Development

## PROJECTS

---

**Inventory Manager** – *React.js, Typescript, Zustand, React Query, React Hook Form, Tailwind CSS* **August 2025**

- Built a responsive inventory management application with real-time stock tracking, search and filtering, and pagination, optimizing state handling and UI performance for a smooth user experience.
- [GitHub Repository](#)
- [Live Demo](#)

**React Query Practice Suite (6 Modular Projects)** – *React.js, Typescript, React Query, Tailwind CSS* **July 2025**

- Developed a modular React project comprising 6 apps, each focusing on a core React Query pattern:
  - “useQuery” for server data fetching and caching
  - Dependent queries using chained API calls
  - Pagination with dynamic query keys
  - “useMutation” for CRUD operations
- Integrated public APIs for real-world simulation:
  - JSONPlaceholder – Posts & Comments
  - MockAPI – Todos & Feedback Posts
  - Exchange Rates API – Currency data
  - GitHub API – User & Repository search
- [GitHub Repository](#)
- [Live Demo](#)

**Personal Portfolio** – *React.js, Tailwind CSS* **February 2025**

- Built a responsive personal portfolio website showcasing projects, skills, and experience with an interactive and modern UI. Implemented smooth navigation and dynamic components for an enhanced user experience.
